New Menu Items in Bistro

We listened to your feedback and added healthy, lighter entrees to the new spring menu including a grilled chicken sandwich, blueberry & apple salad, and homemade vinaigrettes. To increase the amount of plant-based offerings, we added a new vegan curried lentil dish (photo below, left) which pairs well with brown rice.

And don't forget, we have a variety of entrees that are always available including pan seared trout, seared shrimp, and grilled skirt steak (photo below, right).

Please [let us know](#) how you like the new dishes!

The Scoop

Want a smaller or larger portion?

Ask for it! Not all of our menu items can be adjusted, but we will make it happen when we can if requested.

Thank you in general for the wonderful, new, vegetarian dishes. The curried lentils with spinach are filling and tasty.

The Veg Maki roll and shrimp tempura were great. Particularly glad to see the Maki roll. Please keep it on the regular rotation, frequently.

The Grilled Chicken & Strawberry Special Salad this week is wonderful. It was "man-sized" but I ate it all and loved it. The strawberry vinaigrette was perfect with it.

Dinner last night in the JDR was excruciatingly long. Our reservations were for 6:00 p.m. and we were there until almost 8:00 p.m. We were the last people to leave the JDR.

Our apologies for your unpleasant experience in the JDR on Thursday night, we were incredibly busy at the 6:00-6:30 p.m. time period. We will continue to work with our teams as we navigate our challenges.

Why isn't the coffee machine

working? In order to make a specialty coffee beverage, the machine needs a specific type of milk, Kayo ultra filtered milk. That specific type of milk is currently unavailable. We are looking into other coffee machines that have the same brand of coffee, but do not require the specialty milk.
