ANNOUNCEMENT FROM THE CLINIC

We're heading into cold-and-flu season, which means increased attention to illnesses that cause respiratory symptoms. Respiratory Syncytial Virus (RSV) has been in the news recently due to a new vaccine that just became available for adults ages 60 and older. As with other respiratory illnesses, older adults are more likely to develop severe illness with RSV. We can keep RSV from spreading by being aware of symptoms and taking standard precautions. According to the Center for Disease Control (CDC), common symptoms of RSV are runny nose, decreased appetite coughing, sneezing, fever, and wheezing. These symptoms may come on in stages. Everyone can take the standard precautions of frequently washing hands, covering coughs and sneezes, and cleaning frequently touched surfaces. These actions all help to prevent the spread of RSV. If you are feeling ill, please remain in your apartment and call the Clinic.

THE GOODWIN LIVING FOUNDATION - WHAT IS A QUALIFIED CHARITABLE DISTRIBUTION?

Goodwin Living
Foundation

A qualified charitable distribution (QCD) is a distribution of funds from your IRA directly to a qualified charitable organization. Because the gift goes directly to charity without passing through your hands, the dollar amount of the gift may be excluded from your taxable income. QCDs can be used to manage your required minimum distributions from an IRA. Please note that because Goodwin Living Foundation's IRS tax-exempt status is that of a "supporting organization," the Goodwin Living Foundation cannot directly accept a QCD gift. **However**, if you wish to make a QCD donation, QCDs need to be made payable to "Goodwin Living," which is itself a qualified charitable organization (Tax ID #: 54-0623670). These gifts will ultimately be allocated to support the Goodwin Living Foundation. Please contact your tax advisor for more about charitable giving.
